

PLEASE do not change the do not call law in Indiana. It is WONDERFUL to have peace at home. If they want to call us, they should provide our phone service. Let them provide us with THEIR home phone numbers and we will call them at THEIR convenience!! We are free to turn on or off our TVs and radios, we can't turn off our phones, as it may be an emergency call. If this law is changed, I will have my phone service removed.
